**BHS LABORATORY CANDLE FILTER (LKF)  
DATA SHEET**

---

**A) FILTER TYPE**

Filter type:	LKF
Filter area:	0.17 m <sup>2</sup>
Material:	Stainless Steel Pharmaceutical stainless steel design with sanitary tri-clamp fittings available

**B) TECHNICAL DATA**

**I. Filter**

Total width with filtrate pipe and valves:	approx. 1.0m
Total length:	approx. 1.5m
Total height:	approx. 1.5m
Empty Weight:	approx. 300lbs
Vessel volume:	30 L
Max Cake Thickness:	25mm
Max operating pressure:	10 barg (145 psi)
Max operating temperature:	150°C

**II. Media**

Compressed Air:	10 Nm <sup>3</sup> /h
-----------------	-----------------------

**III. Controls**

Manually operated with internal piping and valves skid mounted
